AWARD CRITERIA

In this category, we're inviting demolition contractors to tell us about a contract in an urban environment or confined space that they believe could win the award. Demonstrate how you overcame any major challenges to completion to deliver it on time, on budget and safely with minimum dust and noise. Detail the specific demolition process and resources you used to make this happen, highlighting any innovation or new technology. Show how you managed the project with respect to the client, general public and regulatory authorities. There's no charge for entering the awards and we look forward to hearing from you.
