AWARD CRITERIA

In this category, we're inviting demolition contractors to tell us about a safety and training programme that they believe could win the award. Demonstrate how you train your operators to be safe and feel safe on job sites. Detail the specific training and educational processes you used to make this happen company-wide, highlighting any innovation or new technology. Show how you managed the programme with respect to information on lost time injuries and other regulatory requirements. There's no charge for entering the awards and we look forward to hearing from you.
