SAFETY

For safety reasons it is not allowed to change a stand location, either before or during the event. Stands must never block emergency exits and all exhibitors are kindly asked to respect the markings indicating the corners of the stand. We do not recommend to let things of value stand at the booth when it is unattended. Please note that the venue or exhibition organizer is not liable for any theft or damage to the stand and/or equipment.

ADDITIONAL EQUIPMENT

If you require power or additional equipment, such as to rent a TV with stand please e-mail gary.brinklow@khl.com or contact your sales agent at least 20 days before the event.

LARGE ITEMS

Please notify us if you wish to ship large items to display by your table top. The venue's large freight elevators can hold up to 12,000 pounds and the small freight elevator holds 6,000 pounds. These are needed to access the Davidson Ballroom Foyer – where the sponsors area will be – from the loading bay. Please contact us so we can check dimensions as far as height and width to ensure large items can make the turn into the Davidson Ballroom from the freight elevators.

PRIOR ARRANGMENT IS NEEDED TO USE THE LOADING BAYS.

Load in can begin from 9am. You will need a tail lift and pallet truck or forklift to unload any heavy or bulky items.

Sustainability Standards

Music City Center is committed to sustainability. We prioritize our commitment through the following initiatives.

LEED Gold Certification signifies MCC reduces stress on the environment by being more energy efficient.

A four-acre green roof absorbs heat, insulates the facility, reduces air pollution, and provides a natural habitat for plants, insects, and wildlife.

A 360,000-gallon cistern collects stormwater runoff, providing reusable, non-potable water and reducing municipal water usage by 51%.

An array of 845 solar panels generates as much as 250,000 kWh of renewable energy annually.

Honeybees in four hives produce on average more than 100 pounds of honey each year, while also providing vital pollination.

Waste is reduced by recycling paper, plastic, and aluminum products, as well as pallets, printer cartridges, and grease. Food waste is also composted.

As a Get Food Smart TN member, MCC acts as a resource to others interested in food waste reduction, recovery, and diversion.

As a Pick Tennessee Products partner, MCC offers food and beverages made with regionally and locally farmed products.

By the Numbers

Waste Reduction per Year on Average*

- 280,000 lbs of recycling
- 4,674 lbs of items donations
- 66,750 lbs of food donated
- 53,544 lbs of food waste composted

*Totals based on average quantities between FY14 and FY24.

Water refilling stations divert one-time-use water bottles from landfills. Since 2023, 70,000 water bottles have been saved.

Become a Green Partner!

Join us in reducing our environmental impact. Music City Center provides the following services* to help make your event .

Digital Signage	Waste Reduction	Recycling	Donations
Minimize printed materials by going digital.	Divert food waste by donating meals or composting scraps.	Reduce trash by recycling discarded materials.	Help the local community by donating excess materials.
